AWARENESS TRAINING

- Training is intended for employees of various types of workplace settings including: small or large businesses, school personnel, contractors, restaurant employees, office workers, retail workers, hotel employees, etc.

- This awareness-level training provides an overview for the Guidance on Preparing Workplaces for COVID-19 and to identify risk levels in workplace settings to determine the appropriate control measures to implement.

- How does it spread?
- Risk from Outbreaks
- Steps to Reduce Risk of Exposure
- General Workplace Safety
- Safety at Home
- PPE
- Prevention
- Overview of Aerosol Transmittable Diseases (ATP)
- How to Implement an Exposure Work Plan
- Record keeping Measures
- Training Requirements
- Regulatory Overview in Relation to Training of Employees
- TB Surveillance Procedures

**As an employer, what is your
risk level for your workers
when they engage in work
activities during this
pandemic?**

\$150 PER PERSON

- Participants will earn a certificate once they have completed the training. REHS Credits will apply.

Inquire for more information.

- This training applies to both workers and supervisors.

Training can be extended to a 16 hour session if additional training is needed for a large or high risk group.
